PURE GLASS AND PLASTIC have been used by Don Inman, a former public school teacher at Warner, Alta., to gain national recognition in a new method of sculpting. His "life sized" figures of the legendary Paul Bunyan and Babe, the Blue Ox, and a realistic cave are permanent attractions in the C.N.E. building of the Ontario Department of Lands and Forests and have led to commissions in other provinces. On a basic structure of plywood and chicken wire, Inman uses Fiberglass and polyester resin to form the figures which are virtually indestructable and permanently colored. In these photos, Paddy Wallace shows the comparative size of Inman's work. Left to right: She is sitting on Bunyan's shoulder; standing in the cave and, right, seated beside Babe.

Farm Forum Discusses Parity

(Contributed)

The Gaye West Farm Forum met at Mr. and Mrs. Wes. Knight, Carmangay, Jan. 21. This was the final broadcast on Parity in Agriculture with next week being a summary on the topic.

The question, "Do you feel that obtaining parity income is the most important problem in agriculture?" was a bit difficult to answer. It is certainly one of the most important and as a reasonable income would no doubt lessen a great many other difficulties, the forum finally decided to answer "yes".

When asked what other problems are of urgent importance, a few were listed such as: The credit policy to agriculture, crop insurance, disaster loans, workmen's compensation, unemployment insurance, lack of use of advanced farm training to young farm people, retirement plans and the general need of more efficiency and management on Canadian farms as a whole.

Angles On the Soil Bank Policy

On Dec. 3, forums dealt with the Soil Bank idea as adopted in the U.S.A.. This would seem to be more for western Canada as this is where the main surplus is. However one forum in Qubeec figured the land in their district to be quite marginal for farming and should be put to tree farming. One in southern Ontario believed land was going out of production fast enough thru industrial and residential expansion. In Saskatchewan one agreed they were farming some land that was not producing very well, but in view of this fact felt they needed all cultivatable land in order to go on.

Only one-third of the forums thought such a plan would reduce surpluses, while two-thirds believed a soil bank plan would promote soil conservation. Reforestation and reverting to pasture lands were the main methods suggested for taking land out of production.

By request of the Alberta Safety Council, the forum accepted the project of reporting to them any farm accidents and fires that may occur in the locality, assistance would be appreciated from any one by reporting of any of J. E. McFarland, Mrs. Rudy Hubka or Fred Smith.

Next meeting will be at the Fred Smith's with Wheat Pool delegate S E. Thompson in attendance.

YOUR ALBERTA

THE RESPONSE to this series of advertisements is most gratifying. So much so, it has become necessary to reprint a booklet prepared by the Government outlining the duties and objectives of the various departments serving you. If your request entails mailing of this booklet, please bear with us if it is slow in reaching you. Mailings will be made immediately on receipt from the printer.

AT ONE TIME or another everyone has something to say about education. It's good, or bad, or too much one way or another. Generally, the matter of accommodation of students is to the fore. It might prepare many Alberta residents for the shape of things to come were they to realize that experts forecast a whopping jump in Alberta High School enrollments in the years ahead.

With figures given in THOUSANDS, the following figures of high school enrollment are offered, with future years as estimates:

	1945	1954	1956	1975	1985
Grade X	7.6	9.9	17.2	28.7	33.8
Grade XI	5.8	7.9	14.7	25.3	32.5
Grade XII	5.2	6.3	14.4	22.5	28.6
Totals	18.6	24.1	46.3	76.5	94.9

FIGURES about anyone's type of business except your own are sometimes a bore, and difficult to assimilate. But due to everyone's dependence on food, figures on agricultural production costs are actually everyone's business. The Department of Agriculture made a survey recently on the crop costs per cultivated acre in one Alberta district over the period from 1951 to 1955. The results have sparked many farmers into realizing the importance of the cost of production in profitable farm operations and have created interest in the Farm Planning Program offered by the Extension Service of the Department of Agriculture.

FOR EXAMPLE, in 1951, the total cash expenses such as tractor operating expenses, taxes, buildings, and so on, came to $10.47 per cultivated acre. In 1955, they were $7.58 per cultivated acre. In the non-cash expense field, which includes the crop share of depreciation, interest on land investment, farmer's own labor at hired rates, and so on, in 1951 were $11.71. In 1955 they were $9.41.

COST per cultivated acre in 1951 was $22.18; in 1955, $16.99. The average crop returns for the same years were $28.62 and $20.42. The margin of return per acre for risk and management dropped from $6.44 in 1951 to $3.43 in 1955.

INTERESTING sidelight is the fact that in 1951, 60 percent of farm cash receipts came from crops, and in 1955 it was 19 percent.

MORE INFORMATION on The Farm Planning Program may be obtained from your District Agriculturist or the Department of Agriculture.

WATCH FOR US NEXT WEEK.

Home and School Association

The Champion Home and School Association held its January meeting in the auditorium on Monday evening of last week. It was decided that the funds realized from the Christmas Concert should be turned over to the teachers for film strips.

Twenty-four thousand vitamin pills have been received for distribution to the families.

The meeting asked for volunteers for room mothers and the response was gratifying. The duties of a room mother are to notify the parents of the date of each meeting and any other information regarding the meeting that is deemed necessary.

A petition from the Alberta Federation of Home and School Associations was read and signed by each member. This dealt with "Rights of Indians". Miss Elsie Gordon showed films of their holiday last summer in the British Isles. Following this entertainment Sheila Puzey played a piano selection.

The Home and School Association bake sale which was held in the dining room of the Savoy Hotel on Saturday, Jan. 19, was a decided success. Besides a quantity of baked goods which realized the association the sum of $56.72 a donation of $18.06 was donated by Mrs. Walter Griffin, Mrs. Morris Kuziw and Mrs. Clayton Sletto. The association wishes to thank everyone for their generous donations and patronage.

Basketball

The last regularly scheduled game at Champion of the basketball series got under way in the Champion auditorium Friday, Jan. 18, with the local teams hosting Arrowwood.

The girls' game proved exciting with the Champion girls, who scored their first basket in the first four seconds of play and never again lost command of the game, climbing on top with a score of 49-17. This despite the fact that one of the local girls in her excitement dropped a long shot from center into the Arrowwood basket. When the smoke of the hectic battle cleared some of the girls were bruised and bleeding.

The winners high scorers were Beverly Decker, who sank 16 points, while Freda Hupp was a close runner-up with 13 points. On the losing side high scorers were Joan Zahursky, 11 points; Grace McDaniel (who suffered a rather painful crash) and Sharon House, tieing with two points each.

The boys game got under way with a good start and continued through with Champion securing the victory over Arrowwood. The score, with a decided one-sided victory, was 59-22.

Champions high scorers were Loran Nichols who netted 18 points while Eldon Smith bagged 16 points. Arrowwood's high scorers were Bud Schneider who downed six points, Bueford Culp was the next closest caging five points.

A good crowd was on hand to view the game. The local teams express their appreciation for the interest and rousing cheers of the local fans who have helped them onto victory.

The regular schedule for the County games is finished. The local boys came out with a 50 percent average. The Champion girls have played through the schedule without a defeat. Congratulations girls!

JUST A FEW OF THE MANY GOOD, SOLID REASONS . . .

WHY NEW FARGO TRUCKS are sound buys for every hauling job!

1. Fargo's new *Forward* Look styling—with distinctive hooded headlights—is *functional* as well as handsome. Its windshield (largest of any truck) gives you 1,023 square inches of vision area for greater "see-safety". Its optional wrap-around rear window adds extra vision area, too. Half-ton models, like the D100 express above, are available with exclusive push-button automatic transmission.

2. New high-compression, short-stroke V-8's are the most powerful in Fargo history—up to 232 h.p. And Fargo's exclusive full-opening hood allows the most elbowroom for servicing. Saves time, money.

3. Exclusive dome-shaped combustion chambers in Fargo V-8's get more GO out of every gallon, make "regular" gas fire like premium, minimize power-robbing carbon deposits. Fargo Sixes are extra thrifty, too.

4. Fargo's new comfort cab has a 5-way adjustable seat, extra roominess, centre-located dispatch box, many other features. Independent parking brake adjusts from *inside* cab without tools or trouble.

5. Fargo offers a complete range of husky models to meet every hauling requirement.

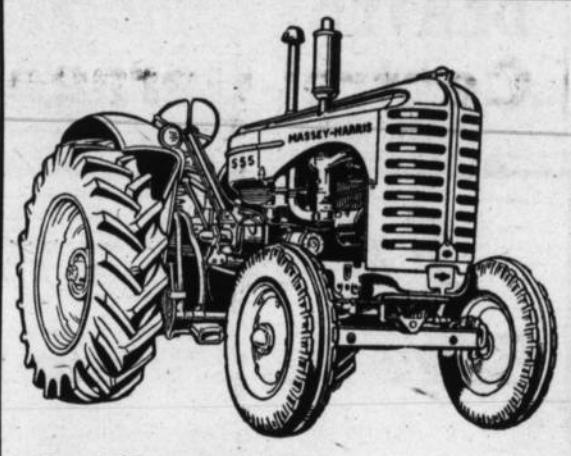

Fargo trucks range from 4,250 lbs. to 46,000 lbs. G.V.W., and up to 65,000 lbs. G.C.W. Many with greater capacities. Frames and other chassis components are built stronger than ever, too.

Are You Driving Half a Tractor?

After only one year of service a tractor can lose as much as 20% of its original power, according to authoritative sources. Think what this means if you've let your tractor go longer than that without a checkover!

It could mean your tractor is delivering only a portion of its original power . . . eating far more fuel than it should . . . making you spend longer hours in the field . . . and cutting your profit.

Obviously it pays to have your tractor given a frequent and thorough checkover! Let our skilled mechanics look it over. They'll clean it up . . . tune it up. They'll restore the power efficiency and fuel economy. They'll do only the necessary work . . . do it quickly, efficiently, and at a reasonable price.

Let's talk over your tractor and equipment service needs. Won't you give us a call soon?

F.U.A. Meeting

The January meeting of the Vulcan West F.U.A. was held at the home of Mr. and Mrs. J. T. White. Twenty-three members were present. It was decided to send a Junior F.U.A. member to Farm Young Peoples Week, every year. The Red Cross F.U.A., extended an invitation to this local to curl in Vulcan. The committee named in charge of this was Wm. Lucas and C. Brown. In the future the meetings will be advertised in the paper two weeks in advance so more members will have a chance to attend.

Spencer Burns, county agriculture representative showed a number of interesting pictures. The members extended him a vote of thanks. Mr. White presented a contest which was won by the ladies. The gentlemen then had to sing a song. A general sing-song oncluded the meeting with a lovely lunch served by the hostess, assisted by Mrs. J. Fisher and Mrs. D. Gadbraith.

The next meeting will be held at the home of Mr. and Mrs. Lionel Lucas.

Keep it under your hat!

The bright idea of a New York Fire Commissioner gives *us* an idea, too. He liked his dress cap; disliked the regulation fire helmet — but he recognized the ever-present danger of falling debris. So he simply had an inner shield of aluminum made and fitted into the cap.

And that's where *our* idea comes in: A lightweight aluminum shield that would fit under a wayward husband's fedora and save him many a skull abrasion when he sneaked in late at night to a rolling-pin reception by the little woman. Ah! aluminum, the *useful* metal!

THE PRICE WAS HIS, BUT THE PURCHASE IS OURS

Christ died for our sins.
—I Corinthians 15:3

But he was wounded for our transgressions; he was bruised for our iniquities: the chastisement of our peace was upon him; and with his stripes we are healed.
—Isaih 53:5

Rejection was His but acceptance is ours;
The wounded blood was His, but the balm is ours;
The thorns were His but the crown is ours;
The death was His but the life is ours.

The Balsam tree sheds its balm to heal the wounds of those that cut it.
